

PGCS Recognition/Australia – Walt Lipke Award

The Project Governance and Controls Symposium (PGCS) is a not for profit organization focused on expanding knowledge of the management and governance of projects, programs, and portfolios in Australasia and rewarding excellence in research. The published academic papers in *Project Governance & Controls Annual Review* (PGCAR) ISSN 2652-1016 (online) are designed to encourage practitioners, academics, and students to creatively think about the challenges the project management profession faces, and suggest innovative solutions. The journal offers a platform for disseminating your ideas to a wide audience. Papers selected for publication in the PGCAR are automatically eligible for inclusion in the annual Walt Lipke Awards and a \$1000 first prize. The naming of the award was inspired by the innovation of Earned Schedule.
